DATTCO TRANSPORTATION SOLUTIONS

Parents & Caregivers,

The Tyler My Ride K-12 app is quick to upload on your mobile device, and setting it up is simple and easy to use.

My Ride K-12 is a mobile app designed for Apple and Android devices to ensure that your student(s) never miss the bus again. With My Ride K-12, parents and students can securely access their own data on bus stop locations, routes, and pick-up times.

DATTCO has been safely transporting hundreds of thousands of children to and from school every year since 1924. We offer reliable transportation solutions, so you don't have to worry about missing the bus. In the following steps, we will guide you on how to set up your My Ride K-12 account and track your child(ren).

STEP 1

Upload the My Ride K-12 app from your app store.

Step 2

When in your app store search for the My Ride K-12 app, and upload to your mobile device. It's FREE

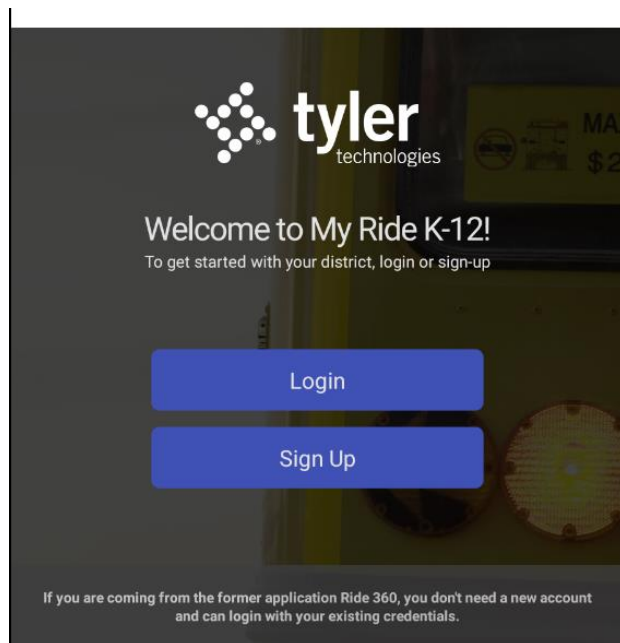

My Ride K-12

Tyler Technologies, Inc

Step 3

Click Login on the app using your existing Username and Password. If you have not created a login to the system yet you need to “Sign Up” and create a username and Password. Click on Sign Up and follow the guided instructions.

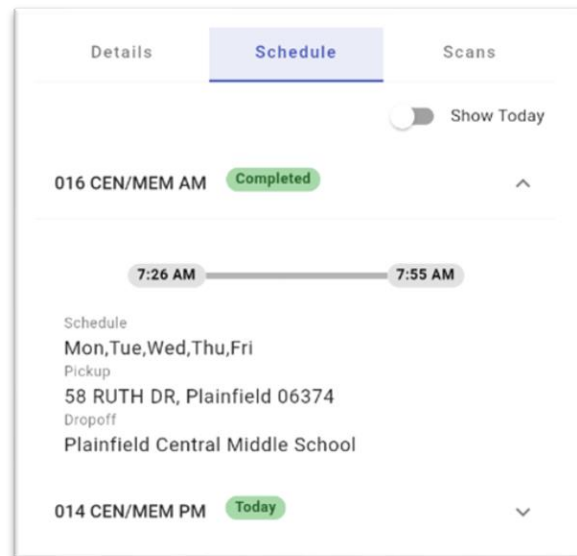

The image shows the Tyler Technologies sign-in form. At the top left is the Tyler Technologies logo. Below it, the text reads "Sign in with your email and password". There are two input fields: "Email" with the placeholder text "name@host.com" and "Password" with the placeholder text "Password". Below the password field is a link that says "Forgot your password?". At the bottom, there is a blue button labeled "Sign in" and a link that says "Need an account? Sign up".

Step 4

When you access the system, your linked student(s) will appear on your device.

To view transportation information, Click on Details, then click on the schedules tab.

Step 5

To see the bus location and ETA, click on Bus Location. In the sample below, we see that the AM run was completed. Times will update if the bus is running earlier or later than originally scheduled.
